San Francisco, CA

Passionate Full Stack Developer with a drive for innovation and creating impactful solutions. Leveraging my extensive experience in the hospitality industry to bring a unique blend of technical expertise and managerial acumen. Eager to bring my fresh perspective and strong problem-solving skills to a dynamic development team.

TECHNICAL SKILLS • JavaScript • Python • Flask • React • Redux • HTML5 • CSS3 • Express • Node • Postgres • SQL

RELEVANT SKILLS • Team Management • Customer Service • Leadership • Creativity and Innovation • Project Management

PROJECTS

Cocktail Collective | [Github](#) | [Live](#) | *Python • Flask • React • Redux*
- Explore a vast collection of cocktail recipes, search by name or ingredients, and share unique creations with the community
- Create a profile to create cocktail recipes, 'favorite' others' cocktails, and track and edit created recipes
- Features for commenting on recipes, discovering the most commented cocktails, and viewing recently added recipes, fostering an interactive and engaging community experience

BeatRate | [Github](#) | [Live](#) | *Python • Flask • React • Redux*
- Collaborated with a developer trio to create a comprehensive platform for music enthusiasts to rate, review, and discover music.
- Provide features for users to create accounts, view, rate and review albums
- Create tools for users to manage their profiles, reviews, and interactions with other users.

EraBnb | [Github](#) | [Live](#) | *Node • Express • React • Redux*
- Develop a user-friendly platform for booking short-term accommodations in a variety of historical time periods
- Provide tools for users to be property owners in order to create and manage listings and bookings
- Provide tools for users to view and manage profile, listings, and property reviews

EXPERIENCE

Restaurant General Manager • *Pacific Catch* • San Francisco, CA   **02/2019 – present**
- Achieved lowest cost of goods, lowest turnover, and top EBITDA in the company
- Successfully managed a $6 million annual revenue restaurant, ensuring financial stability and growth
- Implemented sustainable practices, sourcing 100% sustainable seafood and packaging materials, reducing waste and improving the restaurant's eco-friendly footprint
- Managed a team of 40+ staff, including hiring, training, and performance evaluations
- Conducted regular financial analysis to optimize costs and increase profitability
- Ensured compliance with health and safety regulations, leading to consistent top health inspection scores
- Worked as host, food expeditor, server, bartender, and supervisor prior to promotion in 2019

English Language Teacher • *EPIK - English Program in Korea* • Gunsan, Jeonbuk   **09/2015 – 09/2016**
- Taught English to grades 1 to 6, creating and implementing interactive and engaging lesson plans to enhance language acquisition
- Organized seasonal camps and events, fostering a vibrant learning environment
- Developed teaching materials and resources, ensuring lessons were effective and engaging
- Worked at 4 different schools, conducting classes independently and collaboratively, adapting to various teaching environments and student needs
